

The Daily Courant.

Tuesday, December 26. 1721.

London, December 26.
On Sunday arrived two Mails from Holland, and Yesterday one from France.

St. Saviour, December 5.

THE Plague, from its beginning in Alais to this Day, is said to have carried off 400 of the Inhabitants, most of them of the poorer Sort; it has likewise spread to several Places in the Territory. Letters from Uzes received this Day, confirm the Distemper's not being there. No further Mention is made of St. Ambroise, or of Balindre; and the last Accounts we had from the Lines in the Upper Cevennes say, that all that Country is in perfect Health.

Paris, Dec. 5. There is not any Contagion at La Seine, according to some Advice. And it seems to be much abated at Besse, la Roque, and Neoules. Letters of the 2d Instant from Alauch say, that one or other falls sick there every Day.

Madrid, Dec. 18. Their Catholick Majesties, the Prince of Asturias, and the Infanta, continue their Journey, and are in good Health; They set on the 28th Instant at Noon from Burgo d'Olas, to be at the Convent of our Lady de la Vid; on the 29th they arrived at Aranda de Duero, from whence the Royal Court proceeded the 30th for the Monastery of de Caceres, the Place of a Spanish Daughter, and Lady of Honour to the Queen, and lately in this City, in the 25th Year of her Age.

Copenhagen, Dec. 10. On the 18th Instant the Princess Royal made her Publick Entry into this City with great Magnificence: Her Royal Highness being alighted at the Castle, was received at the Bottom of the Stairs by the Count de Holsten, Great Marshal of the Court, and in the Hall by the King and Queen. The Solemnity ended at Night with an Opera and a sumptuous Feast. Lieutenant General Morner is made General of the City.

Hague, Dec. 23. The next Meeting of the States of Holland is fixed upon the 20th of January next. They having approved the Project for renewing Commerce with Denmark, the States General have caused it to be sent to M. Goos, in order to terminate that Affair. The Queen of Sweden demanding that among the Recantations to be observed against the Plague by Ships trading from hence to the Ports of that Kingdom, all Ships must be provided with Certificates from the Ministers or Agents of Sweden residing in the said Ports; the City of Amsterdam finding some Inconveniences attending that Article, have represented the same to the States, who are determined to use their Instances with the Court of Sweden to have it dispensed with, as has already been to the Subjects of France. Prince Surakio, the Muscovite Ambassador, presses the States very much to obtain their Acknowledgment of the Case as Emperor in the Manner he has required of them; but hitherto it does not appear that that Matter will be so soon complied with. It is reported, that the King of Prussia being lately hunting the Wild Boar, his Majesty happened to re-

ceive a Wound in the Thigh from one of those Beasts, but it is said not to be dangerous.

Paris, Dec. 27. An Office is established for receiving the Effects that have been examined and passed at the late Adjustment, and to deliver in Exchange certain Notes which will be called *Billers de Liquidation*, the Distribution whereof is to begin next Week. A Council of the Finances was held Yesterday at the Palais Royal, with Relation to the several Matters concerning the clearing of the examined Paper Effects. M. Thomas, a Notary of this City, who has drawn up near a Million of false Contracts, and committed several other unlawful Practices, has made his Escape, and it is said has taken with him about 600000 Livres of Effects belonging to several Persons who had intrusted him with them. On the 24th Instant M. de Coulanges, Comptroller of the King's Household, set out from hence to attend the Infanta at Bayonne. The King has made a Promotion of about 130 Knights of the Order of St. Louis, in favour of the Officers of the Marine, the Gallies, and the Colonies.

Paris, Dec. 31. It is reported, that the Cardinal de Rohan, before he left Rome, received Assurances from the Princess of Modena, that she would return to Reggio to the Duke her Father-in-law, and would lay aside her Design of proceeding to Naples. M. Maboule, Master of Requests, was seized with a Fit of an Apoplexy on the 22d Instant, and is supposed to be in Danger, by reason of his great Age. The Count de Coigny, General of Dragons, was also taken ill of an Apoplexy some Days ago. The Abbe Mousmeur, who upon the Decesse of M. de Bezons Archbishop of Rouen, obtained the Abbacy of Bezons, in the Diocese of Bourdeaux, died here on the 28th Instant. It is affirmed, that the clearing of the small Sums in the Paper Effects that have passed the Visa, is very far advanced, and that the adjusting the larger Sums will begin shortly; on which account, the Duke of Orleans highly commends the Dispatch shewn in these Affairs by M. Daube, Deputy of Trade, and one of the Managers appointed for the clearing the Paper Effects.
